**Tools:** GitHub, VS Code, Figma, Postman | **Other:** Video Editing (Self-taught)

**Soft Skills:** Teamwork, Communication, Remote Collaboration, Time Management, Active Listening, Detail Oriented, Adaptability, Continuous Learning, Curiosity.

---

## EXPERIENCE

- Developed a full-featured inventory management system using Next.js, featuring a client-side UI for placing orders and three distinct role-based dashboards (Inventory Admin, Warehouse Manager, and Sales Representative). Each user role could log in securely, view and manage orders, and monitor low-stock alerts in real-time. -----**Everything IT Technologies (2025)**
  - Built a library management project, allowing users to add, edit, view, and delete books with full CRUD functionality and an intuitive user interface. -----**MEST (2025)**
  - Developed an advertisement platform that allows users to create accounts and post products for sale. Clients could view product details, as well as add, edit, and delete their listings through a user-friendly interface with full CRUD functionality. ----**MEST (2025)**
  - Served as a Personal Assistant, responsible for managing schedules, running errands, tracking appointments, and ensuring overall organization. Additionally handled social media account management and video editing tasks to support online presence and content strategy, which boosted my boss's productivity and focus by managing schedules---**January 2024 to June 2024**
  - Worked as a Health Personnel (Radiographer), performing diagnostic imaging procedures (e.g., X-rays) while ensuring patient safety, comfort, and accuracy. This role enhanced my ability to communicate effectively and empathetically with clients, helping me build trust and maintain professionalism under pressure. Contributed to a supportive healthcare environment by delivering reliable imaging results that aided in timely diagnoses and quality care. ---**RIDGE hospital (Intern from 2022 to 2023)**
- 

## PROJECTS & INITIATIVES

**Video Editing:** Self-taught; edited promotional and social media content using mobile & PC tools

**Clothing Business:** Self-managed venture focused on sales, branding & customer service
